

Switch up customer engagement

KPMG Powered Enterprise | Marketing, Sales and Service

Enabled by Microsoft

Transform with leading practice at your fingertips

Preparing for the future starts with a customer-centric strategy. With customers empowered to easily switch products or providers, it's critical to provide the right service in the right channel at the right time. Any strategy to meet this need will require a connected front office able to leverage almost every company-wide resource—all the while improving the customer experience and reducing cost.

Choose to enhance the value of your marketing, sales and service

Armed with more information than ever before, today's customers are reshaping how they buy. To find success, organizations will need to understand motivations and meet their customers on their own terms. As large-scale data capture creates ever-more intimate portraits of customers, analytics will provide new insights about what to sell, who to sell it to, and how to sell it.

Today's customers do not distinguish between marketing, sales, and service when they interact with a business. So these historically separate functions need to establish cross-functional business processes to break down traditional silos. The case for a connected front office is clear as all three functions deal with the same customers, contribute to the overall customer experience, and harvest the all-important commodity of customer data.

Introducing Powered Enterprise | Marketing, Sales and Service

The KPMG Powered Marketing, Sales and Service enabled by Microsoft is a transformation solution, bringing the connected front office to life. It combines deep process knowledge with cloud technology, automation and global delivery capabilities to maximize performance, efficiency, and value.

KPMG accelerators allow customers to tap straight into advanced organizational design, leading technology, processes, and operating models. The KPMG Target Operating Model allows customers to tap straight into advanced organizational design, leading technology, processes, and operating models. It builds on decades of experience and investment in business processes and technology applications.

Through Powered Marketing, Sales and Service, KPMG shows customers the art of what's possible and works with them to achieve it.

Imagine your marketing, sales and service functions with...

more customer coverage

of customers retained

lower average cost to sell annually

reduction in customer attrition

Empower your organization to deliver improved value to both your business and your customer:

Powered Enterprise | Marketing: Following the customer and creating multi-channel personalized experiences demands a flexible, integrated infrastructure, Powered Marketing focuses on easily integrated, scalable open-access solutions.

Powered Enterprise | Sales: Powered Sales can help show the way, automating low value-added activities for customers and salespeople, or offloading them to lower-cost resources.

Powered Enterprise | Service: Powered Service can help re-make your organization as a digitally integrated enterprise, positioning 'benefit to the customer' as a guiding light, informing all strategy, execution, and behavior.
